

About us

Carper's Wood Creations, Inc. is excited at the prospect of sharing our state-of-the-art manufacturing capabilities with you. For over 30 years, Carper's has provided quality Contract Manufacturing services to professionals in the wood related industries. Our more than 75,000 square feet of production space creates a flexible work environment that easily adapts to the ever-changing needs of our customers. Located in Strasburg, VA and staffed with over 30 skilled employees, Carper's Wood Creations, Inc. would like to reach out to you.

Our skilled workers utilize computerized technology to process melamine, wood veneer products, solid wood, MDF, high pressure laminated panels and many plastics. Whether it's CNC Machining, Edge-banding, or Panel Saw Cutting, our production capabilities will live up to your expectations. From large contracts to individual orders, Carper's is the source for high quality products produced in the USA.

We look forward to working with you on your next project
